

An Astronomy Special Lecture at the Sri Lanka Planetarium

Written by Planetarium

Thursday, 13 July 2017 04:34 - Last Updated Thursday, 13 July 2017 05:18

An Astronomy special lecture on “The cradle of young and massive stars” is to be held on 15th July (Saturday) from 6.00 pm to 7.30 pm at the Sri Lanka Planetarium.

This lecture is conducted by Dr. Elena Terlevich who earned her PhD from the University of Cambridge. She has worked at the University of Sussex, Royal Greenwich Observatory and in the Institute of Astronomy Cambridge. Currently she is working at the Institute for Astrophysics, Optics and Electronics (INAOE) in México. She also has published more than 100 papers in international peer reviewed journals that receive more than 4600 citations to date and has supervised several Masters and PhD Theses.

All Astronomy lovers and enthusiasts are welcome.
